

Loving Proof Engagement Tool Kit

Includes:

Prepare/ Enrich Customized Couple Assessment

Prepare/Enrich is a customized couple assessment completed online that identifies a couple's strengths and growth areas. It's one of the most widely used programs for premarital counseling and premarital education. Ten page Couples report summarizes assessment results.

One Hour Skype Consultation

Following completion of the assessment, Deb will Skype with the couple and present the assessment results. The couple will be able to understand their results and will be taught the most important relationship skill of any marriage: the Speaker/Listener technique. Deb will also instruct the couple on how to utilize the Couples Workbook (see below).

Couple's Workbook

The Couple's Workbook serves as the feedback companion to the Prepare/Enrich assessment. It contains over 20 couple exercises and discussion questions. Two copies of the Workbook will be provided.
